Message from the Chairperson

The purpose of the Parent-Teacher Association ("PTA") is to build a good relationship between parents and the school in order to improve student welfare and achieve excellent academic results.

All the committee members welcome you in the 2016-2017 academic year, to support our children in their growth and learning. This is done academically, physically, morally, psychologically, emotionally, and socially through providing necessary support at home and in school.

I understand that every parent in Hong Kong strives to do their best for the children in spite of their busy schedules and lifestyles. In my own experience I am sometimes unable to spend sufficient time with my children. I have learned from my experience that, I need to spend every day reading books with them and talking to them. Therefore, I encourage every parent to spend time with their children by talking to them, checking their homework and reading books with them every day. We need to listen to our children, they have lot to teach us and we can learn from them as well.

In the past, the PTA has organized talks, seminars, one day tours, and various outdoor activities for parents in order to enrich their experiences and to build better relationships with each other. We encourage all members to participate in the activities arranged by the PTA and the school and contribute your time and experience so that we can all achieve the school's goals.

We facilitate communication between parents and teachers by way of issuing newsletters every year, uploading forthcoming activities on the school web page and contacting parents by phone. The Parents' Day is held every year in order for parents and teachers to exchange ideas and share experiences and for us to know and understand our children. Finally, if you would like to express any views about the school and your child's education, please feel free to phone us or send an email. Thank you for your support. We look forward to working with you closely this year.
